Fertility Experts Available for Comment: Fertility Week 2nd-8th September

Repromed, one of Australia's leading fertility clinics, has a range of fertility experts available for comment during Fertility Week 2nd-8th September.

Fertility Week aims to promote awareness to the Australian community around clear and accurate information about the factors that will help them conceive and have healthy children.

With approximately one in six couples affected by infertility, Repromed has helped create more than 11,000 babies and understands the miracle of life sometimes needs a little help.
